# U-SVLO-99-UD

The new  
broadcast/  
camera  
rechargeable  
battery from  
Axcom.

## Maximum capacity, compact design.

Flatter and lighter than ever before but extremely powerful at the same time - this broadcast rechargeable battery from Axcom is based on the latest Li-Ion technology and the high Axcom quality standards.

Profit from  
**up to 40 %  
price advantage**  
as compared to  
conventional broadcast  
rechargeable batteries.

# Always ready for use: To make sure you never miss the best moments.

Professional camera operators need the greatest possible flexibility and that is why suitable V-mount rechargeable batteries are being used.

**With an Axcom rechargeable battery your camera is always ready to record in any situation.**

# Newly developed broadcast rechargeable battery from Axcom – guaranteed airworthy

Most broadcast rechargeable batteries are not suitable for air transport because they have more than 100 Wh of energy. That's not the case with this new broadcast rechargeable battery from Axcom.

With its especially flat, compact design and energy of 98 Wh you can carry along this Axcom rechargeable batteries without any problems according to the IATA regulations for transporting lithium-ion rechargeable batteries.

# More energy, more safety

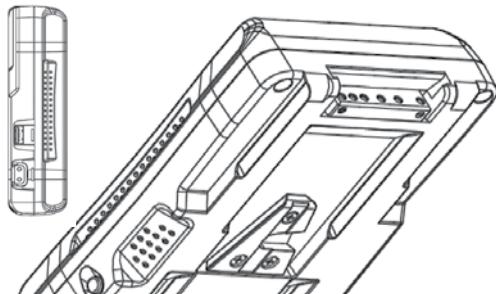

You will find Axcom quality in every detail. For the new broadcast rechargeable battery we use solely LG brand cells and test every rechargeable battery with the greatest care.

D-TAP output for direct connection of lamps and other accessories

With USB connection 5 V/2.1 A for additional energy

# Axcom quality – You can count on it!

Gold plated contacts for reliable and durable contacting

Bolted metal wedge for durable and secure fastening

With 4-stage LED capacity display for quick capacity check

# The new Axcom rechargeable battery as an individual product.

Item no.:	U-SVLO-99 - UD
Technology:	Li-Ion
Cell:	LG brand name cell
Voltage:	14.8 volt
Capacity:	6.6Ah
Energy:	97.68 Wh
Dimensions LxWxH:	151.0 x 95.7 x 37.8
Weight:	580 g

## Technology from Axcom.

Axcom engineers optimize standard applications to fit the individual requirements of our customers and improve even the smallest details to achieve the highest reliability, durability and performance of our products.

## Tested quality.
